## MATERIAL SAFETY DATA SHEET according to 1907/2006 EC

Date of issue: 15.07.2000 Revised on: 04.10.2016

eni Antifoam SH 2 Page 1 of

#### Section 1. Identification of substance/mixture and of the company/undertaking.

1.1 Product identifier:

Product name: eni Antifoam SH 2

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Identified uses: Defoamant

Uses advised against: No uses advised against identified.

1.3 Details of the supplier of the safety data sheet:

Manufacturer/Supplier: Eni Schmiertechnik GmbH

Address and telephone no.: Paradiesstr. 14, D-97080 Würzburg

Tel. (+ 49) 931 - 900 98-0 Fax (+ 49) 931-98442

Advising/Support: Technical Department, Tel. (+49) 931 900 98-142

technik.wuerzburg@agip.de

www.enischmiertechnik-datenblaetter.de

#### Section 2. Hazards identification.

2.1 Classification of the substance

or mixture:

The product has not been classified as hazardous and does not need to be labelled

according to the Regulation (EU) no. 1272/2008 (CLP).

Hazard summary:

Physical hazards: No data available. 2.2 Label elements: Not applicable

2.3 Other hazards: By handling of mineral oil products and chemical products no particular hazard is known

when normal precautions (item 7) and personal protective equipment (item 8) are kept.

The product may not be released into the environment without control.

#### Section 3. Composition/information on ingredients.

3.2 Mixtures:

General information: Mixture of the substance listed below with harmless additions. This product is applied

only as solution or emulsion in water. The components are not hazardous or are below

required disclosure limits.

#### Section 4. First aid measures.

General information: Instantly remove any clothing soiled by the product.

4.1 Description of first aid measures:

Inhalation: Supply fresh air, consult doctor in case of symptoms.

Eye contact: Promptly wash eyes with plenty of water while lifting the eye lids.

Skin contact: Wash with soap and water.

Ingestion: Rinse mouth thoroughly.

4.2 Most important symptoms and effects, both acute and delayed:

effects, both acute and delayed: May

4.3 Indication of any immediate

medical attention and special

treatment needed:

May cause skin and eye irritation.

Get medical attention if symptoms occur.

#### Section 5. Fire fighting measures.

5.1 Extinguishing media:

Suitable extinguishing agents: CO2, extinguishing powder or fog like water spraying. Fight larger fires with alcohol

resistant foam or spray water with suitable tensides added.

Unsuitable extinguishing agents: Water with a full water jet.

5.2 Special hazards arising from the

substance or mixture: During fire, gases hazardous to health may be formed.

## MATERIAL SAFETY DATA SHEET according to 1907/2006 EC

Date of issue: 15.07.2000 Revised on: 04.10.2016

eni Antifoam SH 2 Page 2 of

5.3 Advice for fire-fighters:

Special fire fighting procedures: Move container from fire area if it can be done without risk. Dispose of fire debris and

contaminated fire fighting water in accordance with official regulations. Collect

contaminated fire fighting water separately. It must not enter drains.

Special protective equipment for

fire fighters:

Self-contained breathing apparatus and full protective clothing must be worn in

case of fire.

### Section 6. Accidental release measures.

6.1 Personal precautions, protective

equipment and emergency

procedures:

In case of spills, beware of slippery floors and surfaces.

6.2 Environmental precautions: Prevent from spreading (e. g. by binding or oil bar

Prevent from spreading (e. g. by binding or oil barriers). Avoid release to the environment. Environmental manager must be informed of all major spillages. Prevent further leakage or spillage if safe to do so. Do not allow to enter drainage system,

surface or ground water.

6.3 Measures and material for containment and cleaning up:

Absorb with liquid binding material such as sand, diatomite, acid binders, universal binders or sawdust. Dispose of the material collected according to regulations. Stop

the flow of material, if this is without risk.

6.4 Reference to other sections: See section 8 of the MSDS for Personal Protective Equipment. See section 7 for

information on safe handling. See section 13 for information on disposal.

### Section 7. Handling and Storage.

7.1 Precautions for safe handling: Prevent formation of aerosols. Do not eat, drink or smoke when working with the

product. Take usual precautions when handling mineral oil products or chemical products. Observe good industrial hygiene practices. Provide adequate ventilation.

7.2 Conditions for safe storage, including any incompatibilities:

Local regulations concerning handling and storage of water polluting products have

to be followed.

No data available

7.3 Specific end use(s): Storage class:

10, combustible liquids

#### Section 8. Exposure controls/personal protection.

8.1 Control parameters:

Occupational exposure limits:

None of the components have assigned exposure limits.

8.2 Exposure controls:

Appropriate engineering controls:

Provide adequate ventilation. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure

limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment:

General information: Wash hands before breaks and after work. Use personal protective equipment as

required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment. The usual precautionary measures should be adhered to in handling the chemicals or

the mineral oil products.

Eye/face protection: Safety glasses (EN 166) recommended during refilling.

Skin protection:

Hand protection: Material: Nitrile butyl rubber (NBR).

Min. Breakthrough time: >= 480 min.

Recommended thickness of the material: >= 0,38 mm

Avoid long-term and repeated skin contact. Suitable gloves can be recommended by the glove supplier. Use skin protection cream for preventive skin protection. Protective gloves, where permitted in accordance to safety directions. The exact breakthrough time has to be found out by the manufacturer of the protective gloves and has to be

observed.

Other: Do not carry cleaning cloths impregnated with the product in trouser pockets. Wear

suitable protective clothing.

## MATERIAL SAFETY DATA SHEET according to 1907/2006 EC

Date of issue: 15.07.2000 Revised on: 04.10.2016

eni Antifoam SH 2 Page 3 of 9

Respiratory protection: Ensure good ventilation/exhaustion at the workplace. Avoid breathing vapour/aerosol.

Thermal hazards: Not known

Hygiene measures: Always observe good personal hygiene measures, such as washing after handling the

material and before eating, drinking and/or smoking. Routinely wash work clothing to

remove contaminants. Discard contaminated footwear that cannot be cleaned.

Environmental controls: No data available

## Section 9. Physical and chemical properties.

9.1 Information on basic physical and chemical properties:

Appearance:

Physical state: Liquid
Form: Liquid
Colour: Yellow
Odour: Characteristic

Odour threshold: Not applicable for mixtures

pH: 8,0 (100 g/l, 20°C)

Freezing point: Not applicable for mixtures

Boiling point: Value not relevant for classification

Flashpoint: > 100°C

Evaporation rate: Not applicable for mixtures

Flammability (solid, gas): Value not relevant for classification

Flammability limit – upper (%)-:

Flammability limit – lower (%)-:

Vapour pressure:

Vapour density (air=1):

Not applicable for mixtures

Not applicable for mixtures

Not applicable for mixtures

Density at 15°C: 1,04 g/cm<sup>3</sup>

Solubility(ies):

Solubility in water: Soluble

Solubility (other): No data available

Partition coefficient (n-octanol/water): Not applicable for mixtures

Auto ignition temperature: Value not relevant for classification

Decomposition temperature: Value not relevant for classification

Kin. Viscosity at 25°C: 950 mm<sup>2</sup>/s

Explosive properties: Value not relevant for classification
Oxidising properties: Value not relevant for classification

9.2 Other information: No data available

#### Section 10. Stability and reactivity.

10.1 Reactivity: Stable under normal use conditions.
10.2 Chemical stability: Stable under normal use conditions.
10.3 Possibility of hazardous reactions: Stable under normal use conditions.
10.4 Conditions to avoid: Stable under normal use conditions.

10.5 Incompatible materials: Strong oxidising substances, strong acids, strong bases.

10.6 Hazardous decomposition Thermal decomposition or combustion may liberate carbon oxides and other toxic

products: gases or vapours.

## Section 11. Toxicological information.

## **MATERIAL SAFETY DATA SHEET according to 1907/2006 EC**

Date of issue: 15.07.2000 Revised on: 04.10.2016

eni Antifoam SH 2 Page 4 of 5

11.1 Information on toxicological effects:

Acute toxicity:

Oral:

Product: LD 50 (Rat): > 2.001 mg/kg (OECD 423)

Dermal:

Product: Not classified for acute toxicity based on available data

Inhalation:

Product: Not classified for acute toxicity based on available data

Skin corrosion/irritation:

Product: Based on available data, the classification criteria are not met

Serious eye damage/eye irritation:

Product: Based on available data, the classification criteria are not met

Respiratory or skin sensitization:

Product: Skin sensitizer: Based on available data, the classification criteria are not met

Respiratory sensitizer: Based on available data, the classification criteria are not met

Germ cell mutagenicity:

Product: Based on available data, the classification criteria are not met

Carcinogenicity:

Product: Based on available data, the classification criteria are not met

Reproductive toxicity:

Product: Based on available data, the classification criteria are not met

Specific target organ toxicity - single exposure:

Product: Based on available data, the classification criteria are not met

Specific target organ toxicity - repeated exposure:

Product: Based on available data, the classification criteria are not met

Aspiration hazard:

Product: Based on available data, the classification criteria are not met

Other adverse effects: No data available

### Section 12. Ecological information.

12.1 Toxicity: Acute toxicity:

Product: Based on available data, the classification criteria are not met

Aquatic invertebrates:

Product: EC 50 (water flea, 48 h): > 101 mg/l (OECD 202)

Chronic toxicity:

Product: Based on available data, the classification criteria are not met

12.2 Persistence and degradability:

Biodegradation:

Product: Not applicable for mixtures

12.3 Bioaccumulative potential:

Product: Not applicable for mixtures

12.4 Mobility in soil:

Product: Not applicable for mixtures

12.5 Results of PBT and vPvB

assessment: The product does not contain any substances fulfilling the PBT/vPvB criteria.

12.6 Other adverse effects: No data available Water hazardous class (WGK): 2, water-endangering

#### Section 13. Disposal considerations.

13.1 Waste treatment methods:

General information: Dispose in accordance with all applicable regulations.

Disposal methods: Do not empty into drains; dispose of this material and its container in a safe way.

When storing used products, ensure that the waste categories and mixing instructions

are observed.

## MATERIAL SAFETY DATA SHEET according to 1907/2006 EC

eni Antifoam SH 2 Page 5 of 5

European Waste Codes: 07 07 99 Wastes not otherwise specified.

### Section 14. Transport information.

ADR/RID: Non-dangerous goods
ADN: Non-dangerous goods
IMDG: Non-dangerous goods
IATA: Non-dangerous goods

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the

IBC-Code: Not applicable

## Section 15. Regulatory information.

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU Regulations:

Regulation (EC) No. 2037/2000 substances that deplete the

ozone layer: None

Regulation (EC) No. 850/2004 on

persistent organic pollutants: None

National regulations:

Water hazardous class (WGK): 2, water-endangering

15.2 Chemical safety assessments: No chemical safety assessment has been carried out.

#### Section 16. Other information.

This information relates only to the specific product and may not be valid if the product is used in combination with any other material or in any process.

The informations in this sheet are according to our best knowledge at the date of printing.

The classification is in line with current EC lists. It is expanded, however, by information from technical literature and by information furnished by supplier companies. The classification results from the Conventional Method mentioned in regulation EU 1272/2008 (CLP).

Changes: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 16
